Free webinar series

Knowledge into policy: Going beyond "Context matters"

Politics & Ideas — a think net

inasp

Webinar #2: A conceptual framework / Resources

Are you a policymaker, a researcher, a capacity building expert or a donor interested in better understanding how context affects the interaction between knowledge and policy?
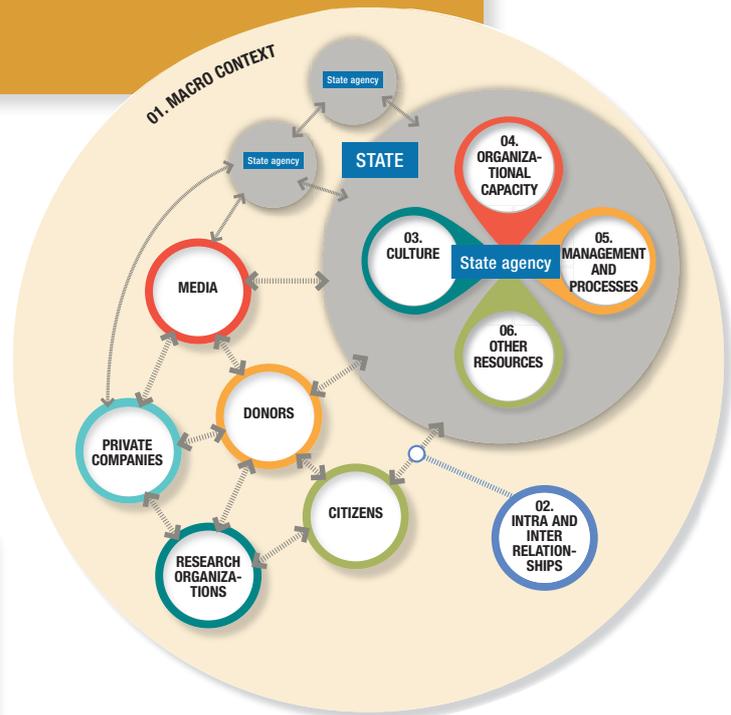

Join the second webinar of our free series where we will explore in depth the six main dimensions of context (for a sneak peek navigate our interactive product) and discuss how we can concretely incorporate them into our interventions and work.

Dimension	Month
Macro-context	October
Other resources	November
Culture	December
Organizational management and processes	January
Intra and inter relationships with State and non-State agents	February
Organizational capacity	March

* Kindly note that this preliminary schedule can suffer minor changes.

In our second webinar we will jointly explore Dimension #6: Other resources, which refers to the set of resources that are critical to an organisation's performance and to achieve its goals, including budget, time, infrastructure and technology. Which resources are critical to enable a better use of knowledge in policy and how? Is there margin for maneuvre when resources are very scarce?

This is a 1.15 hour webinar that will center on these important questions. **Join us on November 23rd, at 2 PM GMT**. If interested, **send an email** to contact@politicsandideas.org with your name, organization and if you plan to attend Webinar #2 or the whole series. We look forward to an enriching debate and exchange!

Webinar #2: Resources/Speakers

Vanesa Weyrauch co-founder of Politics & Ideas and Director of the On Think Tanks School, Argentina. She has worked in the policy and research field for the past 15 years, especially with think tanks and policymakers in Latin America.

Leandro Echt is a member of Politics & Ideas and Coordinator of the On Think Tanks School and Editor for Latin America. He works on the policy and research field, developing organizations's capacities to use knowledge and influence policy making.

Diego Gonnet Ibarra is a policy analyst and team leader at Planning and Budgeting Office of the Presidency of the Republic, Uruguay, on projects about information systems for monitoring and evaluation, open government, open data, and active online transparency.
