Knowledge into policy: Going beyond “Context matters”

Webinar #5: A conceptual framework / Organizational capacity

Are you a policymaker, a researcher, a capacity building expert or a donor interested in better understanding how context affects the interaction between knowledge and policy?

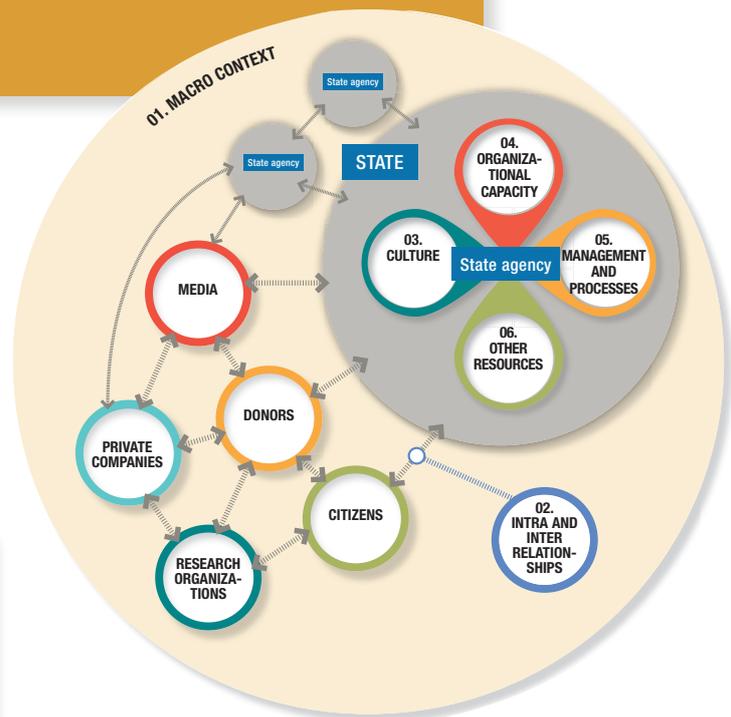

Join the fifth webinar of our free series where we will explore in depth the six main dimensions of context (for a sneak peek navigate [our interactive product](#)) and discuss how we can concretely incorporate them into our interventions and work.

Dimension	Month
Macro-context	October
Other resources	November
Culture	December
Organizational management and processes	January
Organizational capacity	February
Intra and inter relationships with State and non-State agents	March

* Kindly note that this preliminary schedule can suffer minor changes.

In our fifth webinar we will jointly explore Dimension #4: Organizational capacity, which refers to the ability of an organization to use its resources to perform, and includes components such as human resources, leadership, management and the legal framework. What are the main internal capacities that play a pivotal role in making the use of research possible as well as how it is taken up?

This is a 1.15 hour webinar that will center on these important questions. **Join us on February 28th, at 1 PM GMT.** If interested, **send an email** to contact@politicsandideas.org with your name, organization and position, and if you plan to attend Webinar #5 or the whole series. We look forward to an enriching debate and exchange!
