Knowledge into policy: Going beyond “Context matters”

Webinar #6: A conceptual framework / Intra and inter relationships

Are you a policymaker, a researcher, a capacity building expert or a donor interested in better understanding how context affects the interaction between knowledge and policy?

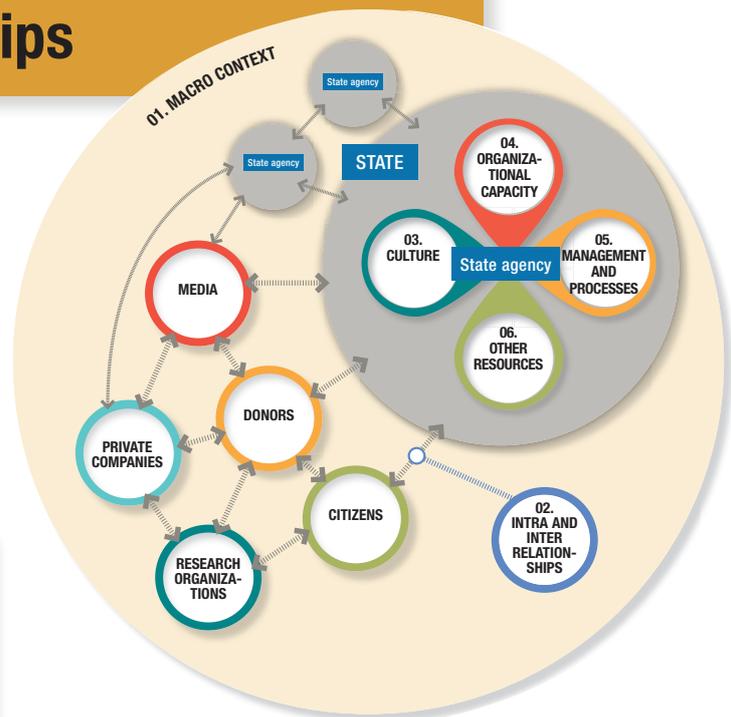

Join the sixth webinar of our free series where we will explore in depth the six main dimensions of context (for a sneak peek navigate [our interactive product](#)) and discuss how we can concretely incorporate them into our interventions and work.

Dimension	Month
Macro-context	October
Other resources	November
Culture	December
Organizational management and processes	January
Organizational capacity	February
Intra and inter relationships with State and non-State agents	March

* Kindly note that this preliminary schedule can suffer minor changes.

In our sixth and last webinar we will jointly explore Dimension #2: Intra and inter relationships with state and non state stakeholders. These include internal relationships between the public institution and other related government agencies and the interaction with external relevant users and producers of knowledge. How can we create and nurture fruitful relationships and co-generate an ecosystem that favors the use of knowledge in policy? Let’s identify smart ways forward.

This is a 1.15 hour webinar that will center on these important questions. **Join us on March 22nd, at 1 PM GMT.** If interested, **send an email** to contact@politicsandideas.org with your name, organization, position and country. We look forward to an enriching debate and exchange!

Webinar #6: Intra and inter relationships/Speakers

Vanesa Weyrauch is the co-founder of Politics & Ideas and Director of the On Think Tanks School, Argentina. She has worked in the policy and research field for the past 15 years, especially with think tanks and policymakers in Latin America.

Leonardo Garnier served as Minister of Education of Costa Rica from 2006 to 2010 and from 2010 to 2014, and as Minister of Planning and Economic Policy from 1994 to 1998. He is an Associate Professor of Economics at the Universidad de Costa Rica.
